House Burned.

The farm house home occupied by Hasting Crim, and situated about a mile north of town on the Drunken Spring road, was totally destroyed by fire last Wednesday noon. The family were at dinner when the fire was discovered, and with the help of neighbors nearly all the household goods on the ground floor were saved, but nothing was saved from the second floor. The fire caught in roof. Mr. Crim had no insurance on his goods. The house and farm belongs to a man in Illinois, we believe.

Democrats Jollify.

The local Democrats celebrated the party victory last Saturday night. They had a parade, headed by the band and a lot of decorated automobiles, burned red fire, had bonfires, put off fireworks, shot off cannon crackers and anvils and dynamite, pounded on tin pans and other noisy instruments, and generally made the little of welkin ring. There was a big crowd of people in town from the surrounding country and everybody was happy and noisy, and feeling good, even lots of the Republicans who jumped in and helped the fun along because they also felt good and didn't begrudge the Democrats their happiness, and all were merry as a marriage bell, except a few old grouchy Republicans, who glowered around in their doors and wished the Democrats and their noise and their happiness was with McGinty.

Bread Baking Contest.

State Normal School, Cape Girardeau, Missouri.
For several years there has been a bread baking contest under the auspices of the Home Economics Department of the State Normal School at Cape Girardeau. This year the contest will be conducted as usual. We are very anxious that a number of young women in the high schools and other schools in the Southeast Normal district will enter. For the young woman who wins in each county, there will be given a scholarship covering the registration fees at the Normal School for one year, valued at \$18.00. This contest will occur on December 7th, so the bread must be here by noon of that day. The loaf may be sent directly to the State Normal School, in care of the Home Economics Department. Any recipe may be used. The contestant should send with her loaf the following information: Name of the flour; kind of yeast used and the recipe. The standard loaf should be baked in a pan about 7 1/2 by 4 1/2 by 2 1/2.

Its stories are not only well told, contributed by the best writers of stories, but they maintain the standards, reflect the ideals of the best homes. They do not throw a false glamour over the tawdry things of life. Rather do they depict the courage, the healthful, the simple—the true life of the greater number with their adventures, their conflicts of temperament, their failures and successes. In 1917 The Companion will print 12 serials and story groups besides fully 250 single stories and sketches, all for \$2.00. The Forecast for 1917, which we will send on request, tells all about the great features of the coming volume.

From Atchison to Dunklin and then on up to Clark, over vale and mountain, across both plain and park, down among the valleys, leap the laughing rills, sending smiles and kisses to the stately hills; mighty rivers flowing onward to the sea; little children playing 'round their mother's knee; firesides brightly glowing, wheat all in the bin, colts and calves a-growing, money coming in. This is old Missouri, from Pineville up to Pike; who, before we got in Wilson, ever saw the like?—Casper Edwards in Malden Merit.

Remarkable Success of Talented Physician in the Treatment of Chronic Diseases
Offer Services Free of Charge

The United Doctors Specialist, licensed by the State of Missouri for the treatment of all diseases, including deformities, nervous and chronic diseases of men, women and children, offer to all who call on this trip, consultation, examination, advice free making no charge whatever, except the actual cost of treatment. All that is asked in return for these valuable services is that every person treated will state the result obtained to their friends and thus prove to the sick and afflicted in every city and locality, that at last treatments have been discovered that are reasonably sure and certain in their effect.

The United Doctors are experts in the treatment of chronic diseases and so great and wonderful have been their results that in many cases it is hard to find the dividing line between skill and miracle.

Diseases of the stomach, intestines, liver, blood, skin, nerves, heart, spleen, rheumatism, sciatica, tape-worm, leg ulcers, weak lungs and those afflicted with long standing, deep seated, chronic diseases, that have baffled the skill of the family physician, should not fail to call. Doan's often has been cured in sixty days.

According to their system no more operation for appendicitis, gall stones, tumors, goiter, piles, etc., as all cases accepted will be treated without operation or hypodermic injection, as they were among the first in America to earn the name of "Bloodless Surgeons," by doing away with the knife with blood and with all pain in the successful treatment of these dangerous diseases.

No matter what your ailment may be, no matter what others may have told you, no matter what experience you may have had with other physicians, it will be to your advantage to see them at once. Have it forever settled in your mind. If your case is incurable they will give you such advice as may relieve and stay the disease. Do not put off this duty you owe yourself or friends or relatives who are suffering because of your sickness, as a visit at this time may help you.

Worn-out and run-down men or women, no matter what your ailment may be, call, it costs you nothing.

Remember, this free offer is for this visit only.

Married ladies come with their husbands and minors with their parents. Laboratories, Milwaukee, Wisconsin.

COW BREAKS MILK RECORD

Heistain Animal on Ohio Farm Gives 115 Pounds in Course of One Day.

Bowling Green, O.—R. E. Rogers of Centre Township, a recognized state cow tester, has finished a test of a Holstein cow belonging to H. A. McQuillan, who lives three miles north of Delta.

The cow is eleven years old, yet she broke two records for any cow of any age or of any breed. During the seven days that Mr. Rogers tested her she produced 611.6 pounds of milk, her biggest day being 115 pounds. This is more than any cow after being fresh eight months has ever done.

CARLSTROM BREAKS RECORD

Victor Carlstrom is holder of the continuous flight record. He covered the distance between Chicago and New York in actual flying time of 8 hours and 37 minutes, not including time out for two stops, one of which was made at Erie, Pa., on account of engine trouble, and the other at Hammondsport, N. Y. The daring aviator had expected to fly between the two cities without stopping. Although he failed, he established a new American non-stop record of 452 miles in 4 hours and 47 1/2 minutes. The distance between Chicago and New York as Carlstrom covered it is about 975 miles. During the entire trip he averaged about 110 miles an hour.

DEEP INTEREST IN ELECTION

London Never So Concerned Over Choosing Magistrate in This Country—Wilson Favored.

London, Nov. 9.—London was almost as much wrought up over the presidential election as the United States. "An unusual popular interest was shown when returns completely turned about over-night. No American election ever has aroused such widespread interest as has this Hughes-Wilson finish.

The newspapers got out almost as many extra editions as some of the American newspapers must have run off their presses. These editions were bought up eagerly and scanned for details.

Wherever there were crowds there was betting, with odds slightly favoring President Wilson.

DEMOCRATS CONTROL SENATE

Defeat of Myron T. Herrick and the Victory in Nebraska and Nevada Make This Certain.

New York, Nov. 9.—Late returns from Ohio, indicating the re-election of Senator Alton Pomerene (Dem.) over Myron T. Herrick (Rep.) virtually ended the possibility of Republican ascendancy in the senate. With Democratic leaders insisting that Hitchcock, in Nebraska, and Pittman, in Nevada, have been re-elected, and with Kendrick probably elected in Wyoming, the political status of the new senate would thus be: Democrats 52, Republicans 43, with the result in Arizona and New Mexico still in doubt.

Should the Republicans carry both, the Democratic majority in the senate would be eight.

In yesterday's election the Democrats elected sixteen senators and the Republicans sixteen, with one state yet to be heard from.

GIRLS CLIMB HIGH CHIMNEY

Colorado Young Ladies Do the Fly Act on Dore From Male Companions.

Estes, Colo.—Climbing hand over hand to the top of the smokestack on the sugar factory here, five young women of Estes did the human-fly act on a dare by their male companions, who promised them a box of candy each if they accomplished the feat. The smokestack is 251 feet high and is built of cement. The women not only climbed to the top but returned to the ground in order without assistance from any of the men, some of whom had attempted the feat and failed. The young women who got to the top of the stack were Misses Martin White, Irene Finzer, Lottie White and Mamie L. M. Steedman and Anna Hickie.
